

CDT CerCoG@UGA IDEX UGA Brain and Cognition CALL FOR COLLABORATIVE PROJECTS 2023-2024

CerCoG@UGA, an IDEX UGA CDT program, promotes intensive interdisciplinary cooperation on brain and cognition on the Grenoble site (with 71 research teams belonging to the SHS, CBS, MSTIC, and PEM UGA research poles). The program addresses scientific questions relative to cognitive functions, cognitive bases of social interactions, underlying neuronal processes, handicap, diagnosis and clinical issues.

CerCoG@UGA now launches the **COLLABORATIVE PROJECTS** call scheduled as mentioned in the blue box.

CALL OBJECTIVE

This action will fund projects with **strong interdisciplinary and scientific interaction between at least two research laboratories within CerCoG@UGA**. The requested budget must not exceed **€10,000** and can be used to fund salaries for limited-term contracts (“vacations”), running costs and investments.

ELIGIBILITY CRITERIA

- Be carried on by two CerCoG@UGA research laboratories
- Demonstrate interdisciplinary collaboration to address brain and/or cognitive functioning or dysfunction
- Be led by a permanent member or a post-doctoral fellow, affiliated to a CerCoG@UGA laboratory

POTENTIAL SELECTION CRITERIA

- Collaboration between CerCoG@UGA axes (Cognition, Brain, Clinics)
- Interdisciplinarity between UGA poles (SHS, CBS, MSTIC, PEM)
- Novelty of the project or collaboration

POINTS OF ATTENTION

- A PI may submit only one project within a call
- The budget must be entirely spent before **January 15, 2024**. A statement of expenditures will be provided by November 2023

CONSTITUTION OF THE SUBMISSION FILE

The document will be submitted in a free format, maximum **7 pages**, in either French or English, and include the following sections:

- Title and acronym
- State of the art (max. 1 page)
- Objectives and keywords (max. 0.5 page)

COLLABORATIVE PROJECTS

Online submission

<https://tinyurl.com/CerCoG-collaboratifs>

IDEX Funding 2023-2024

Total **70 000 €**
(**<10 000 €/project**)

Submission
24/11/2022

Deadline
01/03/2023

Publication of results
20/03/2023

Expenditure deadline
30/06/2025

- Materials and methodology; mention, if applicable, the involvement of the labelled experimental platforms related to CerCoG@UGA, i.e. [IRMaGE](#), [GRICAD](#), [PICGIN](#), [MSH-Alpes / SCREEN](#), [MaCI](#) (max. 1.5 page)
- Preliminary (if applicable) and expected results (max. 1 page)
- Valorization (max. 0.5 page)
- Brief presentation of the PI with contact information, description of the partner teams including permanent and non-permanent members with email addresses. The interdisciplinarity of the partnership must be justified (max. 1 page), as well as the novelty of the project or collaboration.
- Budget with details on the type and amount of each demand, expected or already obtained additional funding (max. 0.5 pages)
- Bibliography of the project (max. 1 page)

Applications must be submitted online ([click here](#) to access the forms form)

COMMITMENT

- The supported projects must mention the support of CerCoG@UGA on all publications and/or communications resulting from the project with the following acknowledgement: *This work has been supported by the ANR project ANR-15-IDEX-02*
- The CerCoG@UGA logo must be used on presentations and posters resulting from the funded work
- The funded teams will provide CerCoG@UGA with a brief report (1 page) that will be used for further reporting
- The funded project leaders will be asked to present their work during the scientific days organized by CerCoG@UGA
- Some non-confidential information may be requested for publication in CerCoG@UGA communication materials
